DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art shows, a surface acoustic wave device form as a network comprising a piezoelectric substrate, a conductive layer located over the piezoelectric substrate and a resistive layer made of silicon, electrically connecting a portion of the conductive layer and piezoelectric layer. However, prior art fails to show a resistor interposing a portion of the conductive layer and the piezoelectric substrate that forms a return path for static charge migrating from the piezoelectric substrate to the conductive layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
